

RAM PROMASTER

Carry the ladders you need on the van customized for your business

Transport more tools, keep productivity high and lower the risk of injuries and worker compensation claims by installing the right ladder-rack solution on your Ram ProMaster.

Prime Design's ergonomic, patented and award-winning solutions have helped business owners around the world eliminate or reduce the costs, stress and business pressures caused by work-related injuries.

HRR-E-PM42 

Rack + weight of ladders shown is approximately 240 lbs.

Maximize the safety and carrying capacity of your Ram ProMaster with an ErgoRack.

Easy to use – deploys with only 2 fingers.

Eliminates slip and fall hazards from climbing on bumper or tire.

Maintain vehicle warranty and resale value with no holes to drill.

Improve productivity – Deploy or stow in less than 20 seconds.

Control ladder deployment with adjustable hydraulic cylinder.

Removable handle – easy access for operators of any height.

Winner of ergonomic awards in USA, France, Germany and Australia.

Ship thru configurations are available.

All ErgoRacks for H2 (Medium Roof) and H3 (High Roof) chassis models come with slides.

All racks can accommodate 16 foot to 40 foot extension ladders.

For rotation ladder racks, crossbars can be spaced at six, seven, or eight feet.

Ladders 28 feet and longer require 8 foot spacing of crossbars.

All racks can accommodate 8 foot step ladders. 8 foot step ladders require 6 foot spacing. For step ladders longer than 8 feet, optional extended rear uppers and slides are available.

Part IDs with "3" in the prefix (ex. VRR3) designates a 3rd crossbar. Three crossbar racks allows more flexibility to carry both short and long ladders.

A wide range of accessories are available including conduit carriers, light holders, and more.

Check the vehicle's manufacturer recommendation for roof capacity weight limit.
